W. Atlee Burpee Co.

Seed Growers Philadelphia

Burpee's Blue List for 1920

It is intended for the use of **Market Gardeners, Florists, and Commercial Flower Growers** who want the Best Seeds that Grow.

The prices in this catalog cover cost of bags, boxes, and packing but **do not include cost of transportation**. The purchaser pays freight or express charges upon receipt.

SEEDS BY MAIL. If seeds are ordered by mail, the cost of postage (Parcel Post rates) must be sent with the order. The Parcel Post rates are regulated according to distance, and the purchaser can readily ascertain the postage by applying to his postmaster. Parcel Post shipments will be insured if the purchaser so requests, in which case the cost of insurance should be sent with the order.

SEEDS BY FREIGHT AND EXPRESS. Where it is convenient to use Express service, we recommend it as economical, and you are assured of prompt delivery. Where very large quantities are to be forwarded, or the distance is short and time is not a factor, freight charges are lower than express. If your station is a "prepaid station," please send an amount sufficient to cover transportation charges with your order.

It is our desire to give our customers the benefit of whatever method of transportation may be most economical for them. Should you be in doubt as to the best method we would suggest that you leave this to us, and take advantage of our wide shipping experience.

C. O. D. SHIPMENTS can be made by **express** (not by freight) when \$2.00 is remitted with the order to cover express charges and guarantee acceptance upon arrival. Small shipments may be sent by Parcel Post C. O. D.

Perishable goods, such as Potatoes, Onion Sets, Bulbs and Roots, **cannot be sent C. O. D.**

OUR TERMS are **Cash with the Order**, unless you are personally known to us, or in a business where we can learn your financial standing from the commercial agencies. Our prices are fixed **close to cost**, hence we must maintain our rule of "cash with the order" or C. O. D. by Express or Parcel Post.

YOU RUN NO RISK in sending cash with the order. Our reputation as honest and experienced seedsmen is known the world over. Our financial responsibility can be learned from any bank, trust company, or merchant who subscribes to one of the commercial Agency Reports. You may remit, **at our risk**, by post-office money-order, check, draft, or express order. Use registered letter if you send cash or stamps.

HOW TO ORDER. Please be careful to **sign your name** and **give your complete address** on every order and letter sent us. Order by catalog number or variety name. If you have an inquiry to make or other matters to refer to when sending an order, write the inquiry on a separate sheet of paper from your order and sign your name and address to each. Your orders will be promptly filled and your inquiries will receive careful attention. **Order Early.**

FEB 28 1920

Burpee's Annual for 1920

Our retail catalog gives full descriptions of the many varieties of flower and vegetable seed which we supply, and much other information of interest and value. To Market Gardeners and Florists, we allow a **Discount of 25%** on seeds ordered in retail packets only from **BURPEE'S ANNUAL**. Ounces and fractions of ounces, quarter pounds and pounds are charged at the prices given in this catalog and are not subject to discount.

This list cancels all previous quotations.

Burpee-Quality Vegetable Seed

Tested and Proved at Fordhook Farms

THE actual economy in paying a fair price for seeds of known quality and the reliability of **Burpee's Seeds** are two facts so well known as to require no demonstration.

You cannot afford to risk a season's work with seeds of unknown quality. When you buy **Burpee's Seeds**, the element of doubt is removed so far as is possible by human care.

Fordhook Farms, famous the world over as America's largest and most complete **Trial Grounds**, were established in order to test and prove the quality—the vitality and the purity—of every lot of seed produced and sold by the **House of Burpee**. At **Fordhook Farms** we conduct each year over twenty-two thousand separate trials. Every lot of seed is given a thorough vitality test in the actual soil during the winter months before any of the seed goes out to our patrons. Then, during the summer we duplicate our tests in the open Trial Grounds, where we prove the quality of the products raised from Burpee's Seeds.

It is at Fordhook Farms also that we carry on the selection and breeding work necessary to maintain and improve our stocks, and try out new varieties of vegetables and flowers before offering them to our customers.

Burpee's Sunnybrook Farms in southern New Jersey and Floradale Farms in California produce many of the finest flower and vegetable seeds.

We exercise every possible care in the selection of stocks, and in the growing, harvesting, and curing of Burpee's Seeds. Our entire effort is devoted to the production and distribution of seeds and bulbs of the finest quality only. We try to do this one thing as well as possible. It costs more to produce **Seeds of the Burpee Quality** but they are more than worth the extra cost.

Burpee's **Blue List for 1920** is a strictly business catalog. It is a "Silent Salesman" that well deserves your careful attention. We have not attempted to give descriptions to the vegetables listed in the following pages but have indicated by using heavy type those varieties which we particularly recommend to **Market Growers**. If you are, in any way, unfamiliar with the varieties listed we would suggest that you consult **BURPEE'S ANNUAL for 1920**, our Retail Catalog, which contains detailed information.

We believe that as conditions are becoming rapidly settled, while prices remain high and food is scarce, Market Gardeners may look forward to a most prosperous year. We will be pleased to have your order for seeds and assure you that we can serve you well.

THE BURPEE STANDARD IN SEEDS is the highest it is possible to attain to-day, and yet we aim for still further betterment. PROGRESS is our watchword! Planters throughout the world, whether gardening for pleasure or profit, soon learn that "the best is the cheapest." These three sentences convey the principal "reasons why" the Burpee-Business grows steadily year by year. Shall we have the pleasure of serving you this season, or will you wait until importuned by some traveling salesman or storekeeper to buy other seeds claimed to be "just as good as BURPEE'S"? You may get as good, but you cannot get better seeds at any price!

Mr. Fuller Proves the Possibilities of Burpee's Prize-Taken Onion

MR. J. N. FULLER, of Brookings, S. D., says: "This patch went a trifle better than 1000 bushels per acre."

Burpee's Sweet Peas

Three New Spencers for 1920

The first Spencer Sweet Pea in existence, brought to America by W. Atlee Burpee, created a new era for this beautiful flower. As far back as 1887 we began to specialize in Sweet Peas, and today's list shows that most of the leading varieties originated with or were first introduced to American gardens by the W. Atlee Burpee Co. In late years special pains have been taken not only in developing new colors and shades, but also in breeding varieties with larger and more perfect flowers. We are fortunate to have for 1920 introduction three varieties which we feel will be welcomed by American flower-lovers.

Hawlmarmk Pink
New Spencer
Sweet Pea for 1920

3477 Hawlmarmk Pink

The Sweet Pea of the year. We think **HAWLMARK PINK** is one of the finest varieties we have ever had the good fortune to offer. It originated with our friend Mr. Hugh Dickson, of Belfast, the noted Sweet Pea expert. To the Sweet Pea enthusiast the source of origin is sufficient guarantee for outstanding merits.

The standard is clear salmon pink, the wings almost rose-pink. The flowers are really superb in size and texture, with the standard attractively waved. The long stems are strong but graceful, carrying four and even five blooms to a stalk, all elegantly placed.

In sealed packets containing 12 seeds each. **Pkt. 35 cts.**, postpaid.

3439 Daisybud

A lovely novelty of delicate and soft appearance. The color of the flowers is a harmonious combination of apple-blossom tints with the suggestion of cream-pink. The texture of the flower is substantial but dainty. Wherever the variety was exhibited it was the object of much admiration.

The flowers are well formed and of largest size, carried four on a stem and well displayed.

In sealed packets containing 12 seeds each. **Pkt. 25 cts.**, postpaid.

3427 Brocade

A unique novelty of most charming color, or rather combinations of color. It is a mixture of salmon, rosy lavender, and rose-pink, with a satiny finish. The flowers are large and finely formed on strong stems.

In sealed packets containing 12 seeds each.

Pkt. 25 cts., postpaid.

The Burpee Novelties of the Early or Winter-Flowering Spencer Sweet Peas are listed on pages 26-28.

Standard or Summer-Flowering Spencer Sweet Peas

We offer re-selected stocks—grown at Floradale Farms. Sweet Peas were a very short crop this past season and this together with increased expenses of growing has made all Sweet Peas very high-priced. However, we shall endeavor to take care of all our customers but advise ordering early to avoid disappointment.

For full descriptions, please refer to pages 111 to 116 of BURPEE'S ANNUAL FOR 1920

2545 White. The original variety.	20	60	2 00
2549 Mixed. Many varieties.	15	45	1 50

Concerning **GRANDIFLORA SWEET PEAS**, the introduction of the many new and improved Spencer Sweet Peas, particularly the Fordhook strains of Early-Flowering Spencers, has steadily restricted the demand for the old and less desirable Grandiflora type. Progressive growers are no longer using Grandiflora sorts. We discontinued growing them at Floradale Farms some time ago and have now decided to stop listing them in our catalogs. The Spencer Sweet Peas are much better in every way.

Acres of Sweet Peas on Burpee's Floradale Farms, California

Early- or Winter-Flowering Spencers

The Winter-Flowering Spencer Sweet Peas are the Sweet Peas for Florists. They are invaluable for greenhouse culture, blooming to perfection when grown indoors and coming into flower by Christmas if sown the first part of September, and may be had all winter long from succession plantings.

The Burpee varieties of Winter-Flowering Spencers are the result of more than ten years' careful scientific work. After the introduction of that magnificent Australian variety, "Yarrowa," we began to cross it with the finest varieties of Burpee's Summer-Flowering Spencers for the purpose of breeding a complete race of improved Early-Flowering Sweet Peas.

The results have surpassed all expectations. We are now able to offer true Winter-Flowering Spencer Sweet Peas in every desirable shade. And, what is of prime importance to florists, our stocks come true to color. We have not offered a variety to our customers until we were sure it would give satisfaction.

We could write pages of description and recommendation for the Burpee Winter-Flowering Spencers but this is a business catalog and our space is limited.

WHITE

3392 Improved Snowstorm (Burpee's) The result of a cross made between King White and Yarrowa, it embodies the best qualities of those two varieties and easily eclipses all early-flowering white Sweet Peas to date. The flowers are of Yarrowa size, but finer form, as the standard does not reflex, but is magnificently bold, though charmingly waved. A vigorous grower, the immense flowers are invariably borne in fours on very long stems. This is the last word in White Sweet Peas. Awarded Certificate of Merit at the Great International Show, New York, March 20, 1918. $\frac{1}{2}$ oz. 70 cts.; oz. \$1.20; $\frac{1}{4}$ lb. \$3.60; lb. \$12.00.

3390 Early Sankey (Burpee's) This truly magnificent white was awarded a special Silver Medal when exhibited at the great International Show in New York, March 20, 1915, also Certificate of Merit at the Spring Show of The Pennsylvania Horticultural Society, Philadelphia, March 23, 1915. Black seeded. Oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10; lb. \$7.00.

3332 Albatross (Burpee Novelty for 1920) A new black-seeded white of immense size. The magnificent flowers are of great substance, and usually borne four on a stem of great length. As with all black-seeded whites, the flowers at times are slightly tinted with pale pink, and this greatly adds to the beauty and grace of the variety. Of vigorous habit and extremely free flowering. Excellent for bunching, and equally desirable for the commercial grower or home gardener. Packets only. Retail price 25 cts. each.

CREAM AND PRIMROSE

3342 Canary Bird (Burpee's) This is a splendid, rich, deep cream or primrose-colored self. The flowers are of great size, beautifully waved, and usually, borne three or four on a stem. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00.

3384 Primrose Beauty (Burpee's) A pleasing shade of deep primrose flushed with rose. The flowers are of great size and beautifully waved in true Spencer form. Grown under glass, this variety attains a height of only five to six feet and is, therefore, valuable for culture on raised benches or on the side benches of low-roofed houses. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00.

LIGHT PINK

3376 Loveliness (Burpee's) The color is white, the entire flower being suffused soft pink until it reaches the edges, which are distinctly picoteed with rose-pink. Oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10; lb. \$7.00.

3395 Sweet Briar (Burpee's) Color a lovely shade of pink throughout, but with a soft salmon or amber suffusion, this being more accentuated in the younger flowers and buds. Grown under glass, this variety attains a height of only five to six feet and is valuable for culture in low-roofed houses. Oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10; lb. \$7.00.

CREAM PINK

3348 Daybreak (Burpee's) The flowers are much frilled or waved, of largest size. A pleasing shade of rich rose-pink on cream ground, the color becoming deeper toward the edge of standard and wings. The entire flower is lightly suffused with salmon. Oz. 90 cts.; $\frac{1}{4}$ lb. \$2.65; lb. \$8.75.

3394 Sunburst (Burpee's) One of the most attractive and pleasing varieties. The flowers are very large, often measuring two and one-quarter inches across. Color a pleasing shade of rich pink, becoming lighter toward the base of standard and wings, with a suffusion of amber and salmon. Grown under glass, this variety attains a height of only five to six feet and is, therefore, valuable for culture on raised benches or on the side benches of low-roofed houses. Oz. 90 cts.; $\frac{1}{4}$ lb. \$2.65; lb. \$8.75.

3386 Rising Sun (Burpee Novelty for 1920) Rose-pink on cream. A bright and most attractive flower. The light lemon-colored keel being placed in the center of this lovely combination of rich pink and rose, creates a most charming color harmony. A fresh and distinctly beautiful flower. Packets only. Retail price 25 cts. each.

DEEP PINK

3383 Pink Beauty (Burpee's) The color is soft rose-pink on white ground, richer toward the edges, gradually softening in color as it reaches the center of standard and wings. Awarded Certificate of Merit at The International Show, New York, March 20, 1915, the Spring Show of The Pennsylvania Horticultural Society, March 23, 1915, and The American Sweet Pea Society, San Francisco, June 9, 1916, when exhibited as Fordhook Countess. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00.

3351 Enchantress (Burpee's) A bright rose-pink, becoming deeper toward the edges of standard and wings, gradually softening in tone toward the center of the flower. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00.

3350 Empress (Burpee's) A most distinct and glorious shade of bright deep rose-pink. The immense flowers are freely produced in threes and fours on very long strong stems. Not quite fixed—a few deeper and also light pink rogues may be expected. Oz. 90 cts.; $\frac{1}{4}$ lb. \$2.65; lb. \$8.75.

3378 Lustre (Burpee's) A pleasing shade of deep rose-pink with a lustro us, copper-like sheen overlying or suffusing the standard. Flowers of great size and freely produced in fours. A magnificent variety for bunching. Not quite fixed—a few deeper and also light pink rogues may be expected. $\frac{1}{2}$ oz. 75 cts.; oz. \$1.35; $\frac{1}{4}$ lb. \$4.00; lb. \$13.50.

SALMON PINK

3364 Gipsy Maid (Burpee's) Color light bright rose-pink, suffused salmon. The deep lemon keel tends to soften and lighten up the flower. The flowers are of great size, usually borne in fours. $\frac{1}{2}$ oz. \$1.15; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; lb. \$20.00.

3363 Early Gem (Burpee Novelty for 1920) A magnificent novelty and a great advance in cream-pinks. The color is rich rose-pink on cream ground, the entire flower being softly suffused amber with just a suspicion of orange. The flowers are perfectly placed and of exquisite form. It should become a leader in this color. **Packets only. Retail price 25 cts. each.**

ROSE AND CARMINE

3387 Rosebud (Burpee's) The flowers are of immense size and freely produced in threes and fours. Color bright shining rose with a suspicion of bronzy suffusion throughout the standard. $\frac{1}{2}$ oz. \$1.00; oz. \$1.80; $\frac{1}{4}$ lb. \$5.40; lb. \$18.00.

3362 Fordhook Rose, Improved (Burpee's) A charming shade of rosy carmine. The flowers are of largest size and usually borne in threes and fours on long stiff stems. Oz. 95 cts.; $\frac{1}{4}$ lb. \$2.85; lb. \$9.50.

3393 Splendor (Burpee's) A magnificent new deep rose self. The rich rose-crimson color is accentuated by the distinct white blotch at the base of standard and wings. The flowers are of great size, usually borne in fours on very long stems. Similar in color to the Summer-flowering Rosabelle. Oz. 95 cts.; $\frac{1}{4}$ lb. \$2.85; lb. \$9.50.

SALMON

3334 Apricot (Burpee Novelty for 1920) A distinctly new color in the early-flowering section. Rich glowing deep salmon self, suffused with orange. Grown under glass the color is particularly rich, while under artificial light it is truly magnificent. Although the flowers are not of largest size, this is more than compensated for in the unique coloring. **Packets only. Retail price 25 cts. each.**

ORANGE

3381 Orange Beauty (Burpee's) Similar in color to Helen Lewis, therefore a glowing orange-scarlet with softer colored wings. Extremely free and early blooming, valuable alike for culture under glass or in the open, as it withstands the sun and weather well. $\frac{1}{2}$ oz. \$1.15; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; lb. \$20.00.

3349 Dazzler (Burpee Novelty for 1920) Flowers of good size and form, usually borne in threes or fours. Standard rich orange, wings rosy-salmon tinted and suffused orange. This fine novelty has been greatly admired in our trials both under glass and when grown in the open. Under artificial light the color is a rich glowing orange-scarlet. **Packets only. Retail price 25 cts. each.**

CERISE

3370 Gorgeous (Burpee Novelty for 1920) A charming soft salmon-rose or pale salmon-cerise self. Similar in color to the popular Edith Taylor. A unique and pleasing color, and always admired. The flowers are of great size, and generally borne in threes and fours on very stout long stems. When known, this will be one of the most popular varieties in this section. **Packets only. Retail price 25 cts. each.**

3344 Cherry Ripe (Burpee's) A particularly bright and taking color and quite new in this section. It might be described as a glowing cherry or salmon-cerise self. Awarded Certificates of Merit at the International Spring Show, New York, March 20, 1918. $\frac{1}{2}$ oz. \$1.15; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; lb. \$20.00.

3373 Illumination (Burpee Novelty for 1920) This striking novelty may be briefly described as a winter-flowering Illuminator, but grown under glass the color is more pronounced, while under artificial light it is particularly striking. The flowers are of great size, color, glowing salmon cerise, with a suspicion of orange suffusion, vigorous and strong in habit, the flowers are usually borne in threes and fours. This gem will be in great demand by both commercial and private growers. **Packets only. Retail price 25 cts. each.**

3359 Fire King (Burpee Novelty for 1920) This is an early- or winter-flowering fiery cross. Color a scorching fire-red or cerise-scarlet, or it may be described as a deep orange-scarlet. It is outstanding in every way, a flower which always attracts. In bright sunlight it has a glory all its own, while under glass the color is greatly intensified. No commercial grower can afford to overlook Fire King, and it is equally desirable to amateur growers in our Southern States. **Packets only. Retail price 25 cts. each.**

CRIMSON AND SCARLET

3388 Rosy Morn (Burpee's) Flowers grown under ordinary field culture have measured fully two inches in diameter. The color is a pleasing shade of rose with crimson-scarlet standard. The flowers are usually borne in threes or fours on stiff, long stems. Oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10; lb. \$7.00.

3374 Early King (Burpee's) The finest early-flowering crimson. The flowers are of great size, perfect form, averaging fully two inches in diameter. Oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10; lb. \$7.00.

LAVENDER AND LIGHT BLUE

3399 Zephyr (Burpee's) This is a delightful shade of pale blue or lavender. It might be briefly described as a silvery blue self. An extremely dainty and charming variety. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00.

3385 Princess (Burpee's) A vigorous grower, and most floriferous, the large flowers being freely produced in fours on long, stout stems. Color, a lovely shade of soft lavender suffused mauve—a color in great demand. The flowers are most attractively fluted or waved. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00.

3375 Lavender King (Burpee's) A first-class lavender has been much wanted in this type, therefore we have great pleasure in offering the Lavender King. This glorious new variety is a rich, true, deep lavender throughout. Similar in color to the summer-flowering variety, Burpee's Orchid. The flowers are of large size, beautifully waved form, and borne in threes and fours on stems of great length. Oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25; lb. \$7.50.

BLUE

- 3396 True Blue (Burpee Novelty for 1920)** As the name implies, this lovely novelty is a charming shade of true blue, or light grayish violet-blue, a color much wanted in this type. Flowers of great size, much waved or crimped, strong and vigorous in growth and most floriferous. Awarded Certificate of Merit at the great International Show, New York, March 20, 1918. **Packets only. Retail price 25 cts. each.**
- 3338 Blue-Bird (Burpee's)** This is a charming shade of blue. Somewhat similar to Wedgwood, but more of a true self, especially as the flower ages. **Oz. 90 cts.; ¼ lb. \$2.65; lb. \$8.75.**

- 3340 Blue Jacket (Burpee's)** This novelty will certainly become popular with all Sweet Pea lovers who prefer the dark shades. It is a rich dark navy-blue self. Extremely free-flowering and usually produced in fours. **½ oz. \$1.00; oz. \$1.80; ¼ lb. \$5.40; lb. \$18.00.**

MAUVE AND PURPLE

- 3380 Mauve Beauty (Burpee's)** Color, a pleasing shade of rosy-mauve. The flowers are of immense size, often measuring two and one-half inches in diameter, yet exquisitely waved and of best Spencer form. A strong, vigorous grower and very free flowering. Charming under artificial light. **Oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.**

- 3367 Glorious (Burpee's)** This magnificent novelty may be briefly described as an early-summer-flowering variety of that name. A charming shade of warm rosy-purple, while the flowers are of great size and invariably produced in threes and fours on very long stems. **½ oz. \$1.15; oz. \$2.00; ¼ lb. \$6.00; lb. \$20.00.**

MAROON

- 3377 Maroon Prince (Burpee Novelty for 1920)** This fine novelty will appeal to those having a preference for the darker and richer colors. The flowers are of great size, beautifully waved, and borne freely in threes and fours. Color a deep rich glowing reddish maroon. A strong grower and most profuse bloomer. **Packets only. Retail price 25 cts. each.**

PASTEL PINK

- 3356 Fairy Queen (Burpee Novelty for 1920)** A most pleasing pastel or art shade, the color being bluish-pink, with pale salmon suffusion, having darker veinings of rose. A most vigorous and free-flowering variety, the flowers usually produced in threes or fours on long stout stems. **Packets only. Retail price 25 cts. each.**

PICOTEE EDGED

- 3346 Daintiness (Burpee's)** This has always been a favorite since it was first exhibited in 1915, when it was certificated. A strong grower, with flowers of largest size and usually produced in fours. Color pure white, edged rose. Similar to Summer-flowering Dainty. **Oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.**

- 3352 Exquisite (Burpee's)** The ground color is a soft shade of primrose, the edge of the standard and wings being beautifully "picotee" with deep rose-pink. **Oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.**

BICOLOR

- 3353 Early Fairy (Burpee Novelty for 1920)** A flower of great size and exquisitely waved. Color rich cream, the standard suffused with pinkish apricot. The mass effect when bunched is charming, the color being so dainty and striking. A strong, vigorous grower and extremely free flowering. **Packets only. Retail price 25 cts. each.**

- 3358 Favorite (Burpee's)** A very free and strong growing variety. Color similar to the old Apple Blossom. Rosy-pink standard and blush wings. Excellent for bunching. **½ oz. 70 cts.; oz. \$1.25; ¼ lb. \$3.75; lb. \$12.50.**

- 3361 Fordhook Pink and White (Burpee's)** This is similar to the old Blanche Ferry, one of the great favorites for greenhouse culture, having a bright, rosy-pink standard with creamy-white wings, lightly suffused rose. **Oz. 55 cts.; ¼ lb. \$1.65; lb. \$5.50.**

- 3398 Yarrawa** The flowers average two and one-half inches in diameter; many are duplex or double. The color is a bright rose-pink with a clear, creamy base. Our stock of this popular Australian variety is absolutely true. Grown by us from seed procured direct from the introducer. **Oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.**

- 3379 Majestic (Burpee's)** In this novelty we have a flower of great size, bold and outstanding. The standard is a pleasing shade of purplish-maroon, the wings rosy-purple. The immense flowers are invariably borne on long stiff stems in threes and fours. **½ oz. 85 cts.; oz. \$1.50; ¼ lb. \$4.50; lb. \$15.00.**

STRIPED AND FLAKED

- 3345 Columbine (Burpee Novelty for 1920)** Somewhat similar to the well-known America Spencer. Color white, the entire flower being striped and flaked rich rose. The flowers are large and of fine form and will be welcomed by those who have a preference for striped and showy colored flowers. **Crop failed.**

- 3357 Fantasy (Burpee's)** Striped and marbled with rich rose-pink on a creamy-white ground. Exceedingly bright and makes a telling bunch when cut. Extremely free and a continuous bloomer, the flowers usually borne in threes and fours on long stems. **Oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.**

- 3372 Harlequin (Burpee Novelty for 1920)** Similar in every way to Senator Spencer, but early-flowering. Light heliotrope ground striped and flaked deep chocolate and claret. A vigorous grower, the immense flowers are freely borne on long stems usually in threes and fours. **Packets only. Retail price 25 cts. each.**

MIXED

- 3400 Sunrise Mixture** It is a carefully composed blend of the finest of the many named varieties of Early-flowering Spencers offered on pages 116 to 118, together with a number of new seedlings from our California workshop. As with all our blends, we have taken pains to determine the right proportion of the different colors to produce the most harmonious and pleasing effect. The seed has all been grown on our own Floradale Farm and is the best that it is possible to grow. **Oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.**

- 3401 Early-Flowering Light Shades in Special Mixture** In contrast to our Sunrise Mixture this Special Mixture contains only light shades—such as white, cream, pink, salmon, lavender, etc., which some of our customers prefer. **Oz. 65 cts.; ¼ lb. \$1.95; lb. \$6.50.**

Burpee-Quality Flower Seeds For Florists

Flower seeds of the finest varieties and highest quality have always been a specialty with Burpee. Floradale Farms have come to be known as the California Home of Flowers and, in addition to the large areas devoted there to the production of flower seeds, we grow annually many acres of flowers at **Fordhook Farms** in Pennsylvania and **Sunnybrook Farms** in New Jersey.

Those seeds which we do not grow, on our own farms are produced under our personal supervision and every possible safe guard is used to guarantee the Quality of Burpee's Seeds.

Our stocks of Antirrhinums, Asters, Calendulas, Centaureas, Celosias, Perennial Chrysanthemums, Cosmos, Gaillardia, Mignonettes, Pansies and Stocks, as well as the finer seeds such as Begonias, Coleus, Geraniums, Heliotrope, etc., are worthy of the particular attention of Florists. We know from the comparative trials of flower seeds from all parts of the world, which we make at Fordhook Farms each year, that **all of our flower seeds are the best that can be grown.**

In the list below we have not attempted to give descriptions, for this is primarily a Business Catalog. Burpee's Annual for 1920, our retail catalog, gives detailed information and complete descriptions, and if any further particulars are desired we shall be glad to answer inquiries promptly and fully.

There are two matters of policy to which we wish to draw your attention. First: **Our catalogs are our only salesmen.** We do not send out traveling men to solicit orders. Look through this catalog at your first opportunity and send your order direct to us by mail. It will be filled promptly and carefully.

Second: **We do not offer "Trade Packets"** of flower seeds. The name "trade packet," is indefinite. In every case, we are offering suitable fractions of an ounce (accurate weight) of the more expensive seeds at reasonable prices. If still smaller quantities are desired, you may order "retail" packets (for which see *BURPEE'S ANNUAL*) at a discount of 25%.

1920 promises to be a year of great opportunities for the progressive Florist. The demand for cut-flowers—particularly the outdoor annuals and perennials which have never received the attention they deserved and are so easily grown—has increased enormously. We are ready to serve you and assure you of our heartiest co-operation in making your business a success.

A field of Phlox Drummondii at Fordhook, where many acres are grown

Flowering Bulbs and Roots

The Florist, as well as the Landscape Gardener, will find much of interest in the following lists. Burpee's Bulbs are selected with the same care and attention to Quality as are Burpee's Seeds. All of the bulbs and roots offered herein are first size (unless otherwise stated), sound and healthy, and sure to bloom if given reasonable care.

We take particular pains in specially packing bulbs and roots to ensure their arrival in good condition and, for this reason, always ship bulbs separately from seeds when both are ordered. When placing your order specify when and how you wish your bulbs to be sent. We do not ship in freezing weather unless ordered to do so and then only at customer's risk.

Our collections of Dahlias and Gladioli are especially worthy of attention. Our list of Cannas and Iris are not extensive but are carefully selected and comprise the best varieties for all purposes; in fact, it has been our aim throughout to offer Quality rather than Quantity. Refer to BURPEE'S ANNUAL for 1920, our retail catalog, for complete descriptions.

If you plant Tulips, Hyacinths, Narcissus, Crocus, or Hardy Perennials, send in your name now to receive a copy of BURPEE'S FALL BULB CATALOG (issued September 1st).

NOTE: Three or more bulbs will be supplied at the dozen rates, 25 or more at the 100 rates, and 250 or more at the thousand rates.

GLADIOLI

NOTE: Gladioli bulbs are very short this season. Order Early.

Burpee's New Primulinus Hybrids

The most graceful in form, profuse in bloom, and artistic in color of all Gladioli. They have made a sensation wherever they have been exhibited and will be in tremendous demand for cut-flowers.

Burpee's Fordhook Hybrids

This distinct new race originated at Fordhook from numerous crosses of "Præcox" with the best varieties of "Gandavensis," "Childsi," "Nanceianus," "Lemoine," and other types. The flowers frequently measure four to five inches in diameter and range in color from creamy white, lemon yellow, soft salmon-pink to bright red and deepest crimson, while there are also lovely light lavender or sky-blue shades and charming, rare pastel and art shades in wonderful combinations of rose, pink, salmon, and amber.

Burpee's Ready-Made Collections of Vegetable and Flower Seeds

These collections are intended primarily for the amateur (see pp. 8-12 and 104-109 of BURPEE'S ANNUAL FOR 1920), but are occasionally ordered by the commercial grower for his wife or to fill in the odd corner of the garden patch.

To Market Gardeners, Garden Clubs, and Florists we offer them at a special discount of 15% and, when twelve or more of a single collection are ordered, at a discount of 20%.

These discounts apply also to the special bulb assortments offered in BURPEE'S ANNUAL, when ordered in straight sets.

ROOT CROPS

Those vegetables that are grown principally for their roots, such as beets, carrots, and turnips, are, of course, classified as Root Crops. Root Crops are easy to grow. They grow quickly from seed and do well in all parts of the country in any good soil. Root Crops can be had early in the spring, all through the summer and fall, and can be easily stored for winter use. Root Crops every month in the year will help greatly to reduce the high cost of living.

EDIBLE SEEDS

Peas, beans, and corn are the Edible Seeds. No class of vegetables contains such highly concentrated food as do the Edible Seeds. So full of nutrition are the Edible Seeds that they might almost be called the vegetable beef-steak. Beans are more nutritious than meat.

GREENS & SALADS

Greens and Salads are just as important for the daily diet as are the Root Crops and Edible Seeds, for they contain the mineral salts which are so necessary for good health. Most people do not eat enough of the green vegetables. Like the Root Crops, some greens, such as cabbage, brussels sprouts, and celery, can be stored for winter use. Greens and salads are truly nature's tonic.

VEGETABLE FRUITS

Most Vegetable Fruits grow on vines and spread well over the ground. They do best in a warm location and on medium-light, well-drained soil. Vegetable Fruits are perhaps the most popular of all vegetables. Musk melons, watermelons, cucumbers, pumpkins and squashes, egg plants, peppers, and tomatoes—surely Vegetable Fruits are the most delicious of all!
